Dear A.I., Glad you are getting over the shingles. I've heard they can be disagreeable. I was aware of the Minox but I'd always thought it was Ruth Paine's so I'm very glad to get that story. The Minox was never a cheap camera, not what you'd expect to be owned by one on unemployment. ...I'm feeling okay but the amount of work I do is tiring me some now. ...Getting quite a few records. Must find time to read them soon.
